

Who can I hire for restoration work?

Several restoration contractors are available to assist with projects. This is a short list of contractors who have performed restoration work for local municipalities. We do not endorse, recommend or assume any responsibility for any specific contractor. We recommend you read about various restoration methods and get two to three written estimates before hiring work to be done. Ask all contractors for proof of liability insurance, workman's compensation insurance and proof of commercial certified pesticide applicator license (when applicable).

Prairie, Wetland, Woodland Restoration Full-Service Contractors (larger-scale jobs)
