

CITY OF CHANHASSEN

Application For Water Use/Sprinkling Permit

Type of permit applying for (check one): Sod (14-day permit) Seed (21-day permit)

Installation Date:

Expiration Date:

Other Comments:

GENERAL REQUIREMENTS

1. Complete an application for daily watering of seed or sod between May 1 and September 30. Applications should be submitted to the city at least two (2) weeks prior to installation.
3. Watering shall only occur on the days and times designated on the approved permit.
4. Applicant shall post the approved watering permit in a prominent location on their property so as to be easily visible from the street.
6. The City of Chanhasen reserves the right to limit or revoke the watering permit if water conservation is required to maintain adequate fire flow within the city or if the applicant violates any conditions of the permit. Violation of the water restrictions is a misdemeanor offense.
7. The City of Chanhasen reserves the right to deny any request, including the following conditions:
 - If a water emergency has occurred in the previous two (2) weeks.
 - If daily use has exceeded 6.5 million gallons per day more than three (3) times in the previous two (2) weeks.
 - If any of the city's wells or reservoirs will be out of service during the permit period.

I have read and understand the City of Chanhasen's General Requirements for Water Use/Sprinkling Permits
