PHASE 2 COMMUNITY ENGAGEMENT - SPRING 2017

| DATE | TYPE OF ENGAGEMENT | MEETING/ Event | LOCATION | WHO Facilitated | NOTES |
|------------|-----------------------|---------------------|---------------------------------|--------------------|--|
| 4/6/2017 | Open House | Open House | Chanhassen Recreation Center | City Staff & HKGi | Over 70 community members in attendance |
| April 2017 | Online | Social PinPoint Map | Social PinPoint | HKGi | Received over 500 views and almost 200 comments/survey responses |

Open House Summary

| Board | Comment | |
|-----------------|--|--|
| Comment Card | Thank you so much for putting this together! Please seek support from Chan residents if you need more support for purchasing some of Prince's land. This land is extremely important for both residents and animals. | |
| Comment Card | I think that the top priority for the Parks and Rec system should be acquiring and preserving the land owned by Prince between Lake Ann and Lake Lucy | |
| Comment Card | Outdoor bandshell for concerns - Lake Ann | |
| Comment Card | Would love to see a mountain bike trail one day! | |
| Comment Card | Safety is a major concern of the residents in the Herman Field Park neighborhood that needs to be addressed. The issues are well known (just ask the local police) and include, among other things, drug activity and EXCESSIVE speeding in and out of the park. I fear one of htese times a kid is going to get hit by a car flying around the corner. Nighttime activity is another issue. The sun sets at about 7:45pm but the park is open until 10pm. Why? Nothing positive happens in this park after dark. Before thousands of dollars was allocated to the planned pavilion being installed, I would much rather have seen that money first going to hlep address the issues noted above. The police have had an increased presence, which we appreciate, but they cannot be there 24/7. | |
| Comment Card | Addition of a splash pad at major park(s) - Lake Ann and Lake Susan | |
| Comment Card | Safety of paved trails - adding a yellow dotted line | |
| Comment Card | Mileage markers on trails, 5k/10k routes marked - work with local schools (Earth Club) or Boy Schouts to have the youth help plan routes, post routes/mileage markers on website | |
| Comment Card | NO SMOKING in all parks! Better yet, NO TOBACCO! | |
| Comment Card | Addition of an adult playground (outdoor exercise equipment) | |
| Comment Card | Several families with young kids are moving to Chanhassen, what can Chanhassen provide for 1-5 year olds? | |
| Comment Card | Repave trail on No. side of Rice Marsh Lake. Very bumpy and cracked. | |
| Comment Card | Add signage at trail heads and intersections around Rice Marsh Lake | |
| Comment Card | Would love love a pikcleball court at Lotus. | |
| Comment Card | Would love a volleyball court just as much at Lotus | |
| Comment Card | The teenagers in the area need a place to be together and play. Add a teen theme area next to playground? At Lotus park | |
| Comment Card | Preserve some of Prince land please! | |
| Comment Card | 101 needs a bike trail to Minnetonka High School that is safe. Hoepfully after construction is over it will be in place. | |
| acilities | Make sure if pickleball expanded - consolidated in few locations | |
| Facilities | Groom XC ski trails on soccer fields in the winter | |
| -acilities | Golf practice range? | |
| Facilities | [running/walking track at signature rec facility] Great idea! Would be used by many! | |
| Facilities | [Senior center study] Add tech classes - how to wrk with photos, keeping up to date with phones, pds, special software apps, etc. | |

| Facilities More [pickleball] courts needed. Amenities less important. Facilities No lights at 2nd soccer field near Springfield houses Facilities Please construct a year-round swimming pool 1 Facilities More pickleball courts Facilities Please provide an indoor walking/running track [at recreation center] Facilities Please provide an indoor walking/running track [at recreation center] Facilities Please provide an indoor walking/running track [at recreation center] Facilities Please provide an indoor walking/running track [at recreation center] Facilities Canoe only [boat access at Lake Lucy] Goals Regarding AF and be a leader in teaching all of our community about environmental sustainability 1 Operations Tabacco FREE use policy Tabacco FREE use policy Tabacco FREE use policy Parks Lights near houses do shine in/by Springfield, N of Ploneer Trail to Ploneer Housing Parks Pay more attention to smaller parks Parks Splash pad river like Burnsville "Heart of the City" Parks Keep Foxwood Area natural Natural trails, do not pave Parks Bike club would make moutain/a mountain bike trail! Social PinPoint Summary Comments

ID # Like it! Comment (up votes, down votes)

- 1 It will be nice to have a place for people to park and use their bicycles to hop on the trail. (0, 0)
- There's currently no way to safely bike from Minnewashta Parkway, east, to the rest of Chanhassen. Creating such a connection should be a key city-wide safety goal. (0, 0)
- The trail stops 1 block short (on a dangerous curve) of the County line. We need to engage with the city of Shorewood to extent the trail to at least Mayflower. (16, 0)
- 4 Good park, playground needs updated. (1, 0)
- 5 Have to drive on highway shoulder to get to trail access. Trail that connects to old railroad grade trail will be well used. (9, 0)
- Love everything about a trail along Pleasantview: beauty, SAFETY, builds community among neighbors, promotes more use/exercise as now people shy away from walking, biking due to peril of traffic. (14, 0)
- This is the best off-leash dog park west of the Twin Cities. I love the woods and variety of paths. It is well maintained year round. (3, 0)
- 8 This would be a nice access trail to the Southwest Trail. (1, 0)
- 9 Keeping up and improving North Lotus Lake Park is very important to our family. Thank you! (4, 0)
- Place a cut through that is properly paved for biking down to the lake. The current stairs are great for walking, but for biking to the beach, a paved path would be an improvement over the dirt path. (0, 0)
- 11 A great neighborhood park! (8, 0)
- Really appreciate the off-leash dog park at MRP. Any chance to add a smaller off-leash area at one of the city parks (North Lotus Lake or other)?

 (1, 1)
- Would love a trail here! (9, 1)
- 14 The trails need to be connected to get into Excelsior. It isn't safe the way it is now. (31, 0)
- Would love to see an outdoor ice rink. Also wish the playground was bigger/made for older kids as well. Even better would be a tennis court. There are a lot of kids in area now. (0, 0)
- Great park. Wish the basketball goal height was adjustable for smaller kids but otherwise, it's a great little spot. The new playground equipment and gazebo is well done. (2, 0)
- We would love to see an outdoor hockey rink at this location. Many more kids in the neighborhood now so it would be used a lot. (1, 0)
- 18 Crosswalks on Carver Bch Rd. People drive too fast and often run stop sign at Nez Perce. The sidewalk is on the opposite side of the street so you need to cross to get to the park. (0, 0)
- We would love a safe path along Pleasantview. The traffic is far too fast and careless along many of the blind curves to feel safe walking or biking, especially with kids in tow. (12, 0)
- 20 I really like the first round of improvements (esp adjustable basketball hoop). The Roundhouse itself could use some cosmetic updates. (0, 0)
- Yes, please! Those of us in the Saddlebrook neighborhood would benefit greatly from walking access to Lake Ann/trails, as long as crossing Powers can be done SAFELY. (22, 2)
- Buy Prince's land and make it a natural preserve with trails. Owners of existing properties adjacent to Prince's land don't want new housing developments in their backyards! (31, 0)
- Happy to see a southbound planned trail connector out of Minnewashta Park. Any chance of Carver County dropping/eliminating that park entrance fee? The fee prevents full resident use of the park. (22, 0)
- The area West of Lucy and Ann should be a natural preserve. buying this property from the estate of Prince should be the #1 priority for Chanhassen! (48, 2)
- A sidewalk would be beneficial in this area. Meadow Green Park is heavily used and a separation between vehicles and pedestrians is recommended. (2, 0)
- When the trail is built, put in a camel hump bridge in with a canal connecting the 2 lakes. This way fishing boats and canoes can travel between the lakes. (5, 17)
- 27 I agree with the bridge idea over the creek between Ann and Lucy. This would provide boat access between Lake Ann and Lake Lucy. (3, 9)
- Yes improvement seems like a good idea here (4, 0)
- 29 Great plan. Excited about being able to use it. (1, 1)
- 30 Connecting for a loop around the lakes is crucial for a 5 yr goal. (27, 4)
- Long term this is a good idea, but until this land is developed, focus in the trails NE and SE of this segment. (2, 8)

ID # Like it! Comment (up votes, down votes)

- This is an amazing project and I hope it goes through! It could give us the same feel as the people get in Uptown with lake Harriet and Lake Calhoun!! (35, 1)
- 33 Your going to build houses on Prince's old property anyhow, so it makes sense to link up the new neighborhood. (4, 12)
- Connecting trails to Minneswashta City park system is a great idea! (6, 0)
- LOVE the idea of a trail all the way around Lake Ann and Lucy. Would use it all the time. (0, 0)
- Beautiful property. Could be integrated well with Paisley Park and made a destination for people to come visit. Sculpture garden dedicated to Prince. (5, 0)
- Connecting the trial all around Lake Ann is a great feature for the community. It preserves such a beautiful space and avoids houses being built along the lake destroying the land. (16, 0)
- We need to have the trails go all around Ann and Lucy to connect. Also need to preserve the "big woods" areas SW of Lucy and NW of Ann as "natural" undeveloped in any way areas. (Prince's property). (48, 0)
- 39 Finally -- a path that goes around Lake Ann. That could become the most used path in the City (8, 0)
- 40 Much-needed connector! (0, 0)
- A whole neighborhood of kids that don't have access to trails for running or biking without crossing over busy 41 (and no stoplight to do it at safely). (6, 0)
- 42 Finally having one lake in the community that has a path entirely around it would be an amazing asset for runners/walkers/bikers. (8, 0)
- Would be a great use of this beautiful land. (19, 1)
- These new trail gaps are really needed and overdue! (7, 0)
- Additional safety measures at this intersection are needed. As a resident of this neighborhood, I've personally seen several instances of cars failing to yield to pedestrians crossing in the crosswalk (19, 0)
- Open space, ability to incorporate running and biking with the rec center. Also, centrally located and close to Lake Ann and ball fields. (5, 0)
- 47 I like getting kids back to nature. (2, 0)
- Residents have to walk on the shoulder, unprotected between Saddlebrook Curve and Santa Vera while cars travel 55mph+ and swing around cars stopped to turn left into the temple. Very dangerous. (13, 0)
- 49 This sidewalk on Powers is exposed to high speeds of traffic for pedestrians without protection!!! (8, 0)
- Yes! a nature play area at this lake would be a great improvement! (9, 0)
- Saratoga Dr. and Santa Vera are busy streets with lots of kids walking. It would be great to have a sidewalk along them from Laredo Dr. sidewalk to the trail end on Santa Vera in City Center Park. (12, 0)
- 52 Hooray for this connector! (9, 1)
- This would be a great path, but I'm NOT in favor of a road for car traffic. Also putting this trail through is NO use if there isn't a safe way to cross HWY 5 from the N to S side of the highway. (0, 0)
- This entire stretch of Powers needs more street lights. The walkway is right next to the road, the lighting is terrible and there is a lot of risk to pedestrians who walk or run at night there. (7, 3)
- Seems like a good idea, especially if available year round (0, 0)
- This intersection (hwy 41 & 78th street) it is dangerous to cross in a CAR let alone on bike. No sidewalks on West side means kids/all HAVE to cross to stay off the road. VERY scary!!! Please fix!! (0, 0)
- We live behind Westwood Church and like to bike but our young kids get scared to cross over 41 with us to get access to the trails. Sundays are particularly bad with church traffic. (10, 1)
- 58 The proposal to complete the loop around lake Anne is super exciting to us, we would love to be able to walk a full lap around the lake (12, 1)
- 59 Preserving the natural area and defining boundaries. (8, 1)
- 60 It's important to create a bike-friendly, child-friendly connection from Minnewashta Parkway to the rest of Chanhassen. There's no way to do that now. (2, 0)
- Fantastic and long overdue, big thumbs up! There is no other easy way to get to Minnewashta Pkwy, it's incredibly dangerous if someone knows no other way. (10, 0)
- 62 I hope the discussion includes a swimming pool. (3, 0)
- 63 The arboretum should definitely have a trail along highway 5 that connects it to the trails on the intersection of 41 and 5. (17, 0)

ID # Like it! Comment (up votes, down votes)

- This park seems to be ignored. Our young families in our neighborhood is growing and would benefit with a facelift to this park. My son and I use the basketball court a ton but the play area is moldy. (0, 0)
- This trail should be done. But there should be some expanded parking on the north end of the trail at Coultier so more people can use the trail system. (4, 0)
- 66 Connecting a trail to the rail only makes sense. It gives people more access in and out of the city and links to other resources. (5, 2)
- We love the trail around Lake Susan and Rice Marsh Lake. (3, 0)
- 68 I like the permanent bathroom (0, 0)
- 69 This is a beautiful panorama of the lake right here. Lots of waterfowl and activity. (3, 0)
- This is NOT a dead-end and is needed for safety reasons along this short stretch of Lyman. The trail would connect to Norex Dr. (business park area) and then to the Chanhassen Nature Preserve trails. (1, 1)
- This paved trail going all the way around lake, along marsh and through forests is a fantastic improvement made by P&R in recent years. Thank you! (4, 0)
- 72 Would LOVE sidewalks in the Chanhassen Hills neighborhood!! Would provide a nice connection to the trail system to the west and north. (9, 5)
- Please re-open ASAP, we used to ride and run on it all the time. It is a shame it has been closed for so long since those big rains (3, 0)
- The public right of way is already here. Please clear the couple of dozen feet of track to connect sunset trail to power hill park. It would very much open hiking/running/mtn-bike transport. (12, 1)
- 75 Would be a mini Arboretum. Love it. (3, 0)
- Hockey rink is a great addition. Lights make it possible for us to use with our kids when we get home after work and school. (0, 0)
- All of these amenities will be wonderful additions at Bandimere! Especially like the field lights great for the baseball and soccer teams who use the park! (1, 3)
- The interior of these woods is a quiet respite. Please leave the nature as-is, without paving anything inside. If you must, a connector trail can go around its edge. Keep Wilderness in the city. (14, 5)
- 79 Great idea for a trail linking Bandimere is a great natural area (1, 0)
- 80 I would like to have access to ride my bike (or walk) through this area. (5, 1)
- 81 This would be a great connection for a walking/running loop (3, 0)
- We really need to close the Pioneer Trail trail gap. It is such a fast/high traffic area. Especially with this being the detour for the trail to the south it is too unsafe. (8, 0)

ID # Concerns Comment (up votes, down votes)

- Park needs updating. Equipment is in less than safe shape and could use new landing material. Baseball field usually has weeds. Hockey boards are starting to rot. (4, 1)
- Traffic concerns here right of way/yielding between cars turning left onto Hwy 7 from north and turning right onto Hwy 7 from south (plus peds + bikes) is an issue. (0, 0)
- This is a dangerous spot. Constantly see people trying to cross either walking or on bikes. Also the road needs repair here as it puddles and ices over and creates accidents. (4, 0)
- Dangerous corner for pedestrians to cross over powers. automobile traffic is 55MPH+. People whip onto Lake Lucy at high speeds to beat oncoming traffic. (0, 0)
- This is a small, quiet lake surrounded by homes. No one living near this lake wants the traffic/parking, noise, and litter that a public boat launch will come with. Bad idea. (20, 1)
- There are plenty of other lakes that fishing/motor boats can access. Lucy has been a closed lake and should remain closed. Canoes and Kayaks occasionally portage through to enjoy the quietness of Lucy (30, 1)
- 7 Totally agree with previous comment I would love to see Lake Ann remain a closed lake. (1, 0)
- 8 Would be nice if local residents didn't have to pay the annual pass fee to use the dog park, or at least have a reduced fee and a different tag for it. (5, 3)
- 9 Lake Lucy is too small to accommodate more boats than those already in use there. (4, 0)
- Boat access would use a lot a Greenwood Shore Park,parking turnaround etc. Lucy is shallow at Park access area,would need a long launch and other. Lucy is a small lake to have more motor boats it! (16, 2)
- Keep traffic out of Lake Lucy & the Greenwood Shores neighborhood. The neighborhood already deals with people illegally parking & we don't want an increase of traffic where people live and kids play. (14, 1)
- The Greenwood Shores neighborhood already sees an increase in traffic (usually speeding) & people illegally parked in the summer instead of using lake Ann beach- all this will make it even worse! (10, 2)
- "Basketball court has only one basketball hoop. This court is very popular, kids waiting in line to play. Please add an additional basketball hoop ore more!

Thank you! (1, 0)"

- "The surface of the tennis courts are in a great shape! Thanks
 - The practice wall will need improvements as is unleveled. Rising the fence behind the wall will prevent ball flying in the street (2, 0)"
- Very difficult to play soccer on this field. Is very unleveled and the grass is high most of the season. Not a good field to improve technique. (0, 0)
- ls there any way to add more shade to this playground? It's gears toward little kids (3-5) and it gets super hot pushing swings. Not to mention all the scorched legs going down slides... (3, 0)
- 17 A safe pedestrian crossing at Valley View Road, connecting the Chanhassen Road Trail with those in Eden Prairie would be appreciated. (0, 0)
- 18 This trail sounds fine, but needs some SAFE way to cross to East side of 41 (where the sidewalk is). (0, 0)
- Dangerous corner for pedestrians to cross. automobile traffic is 55MPH+. People whip onto Lake Lucy at high speeds to beat oncoming traffic. I live on Treetop and worry someday I will be rear-ended. (0, 0)
- This area needs a sidewalk. People have to jump out of the way of cars who are taking shortcut to Kerber. If sidewalk extends on Santa Vera to Park people parking for ball games will have safer walk. (13, 0)
- 21 Fitness center is too cramped and equipment is run down or old. Need regular fitness classes, possibly childcare, etc. (6, 0)
 - "Surface on the tennis courts are not in shape: cracks and chipped cement.

Improve lighting for evening matches. Last season, lights did not work (0, 0)"

- 23 We need some safe ways to cross the highway. Even AT hwy 5, the crossing is VERY dangerous for kids/adults on bikes. (2, 0)
- Surface on the tennis courts are in a very bad shape. Big cracks all over with potential to fall!!! (1, 0)
- Chanhassen needs an ice arena. As our association is growing and we stop selling ice to MTKA we will need more sheets. Chaska seems to have a grip on Soccer and Hockey setups. (0, 0)
- Getting across Hwy 5 at this location is a big safety issue. Would an over head pedestrian bridge be in order? Being a state Hwy and the UMN, they should pay for the lions share of the cost. (6, 3)
- This park is sadly in need of a facelift. A small parking lot would also be greatly beneficial. Please consider giving some much needed attention to this park. (6, 0)

22

ID # Concerns Comment (up votes, down votes)

- But is this not RR property? Concerns of safety with the train. Or is the RR abandoning it? If so, being a major regional trail, shouldn't Carver Cty,Met Council, or MN fund it? (2, 0)
- 29 It would be great if there was an under-the-road bike path here (Higway5) so the city of Chanhassen and people north of there could easily ride to the parks and trails on the south side of the city. (7, 0)
- ls this leg of the trail really needed? Maybe 20+ yrs from now, but I'd rank it low for the trail system for the near future as other needs are much higher. (0, 1)
- 31 Surface on the tennis courts are in a very bad shape. Big cracks all over with potential to fall!!! (3, 0)
- 32 We love Lake Susan Park. It would be nice for the bathroom to be open more often. (2, 0)
- 33 Could we connect this trail? (10, 0)
- Would be nice to have a strategically placed bench right at the area next to the trail that shows the nice marshy area. As older adults my wife and I love to stand and look at this particular area, (2, 0)
- If this part of the trail is done--should not Chaska and the UMN be chipping in on the cost? This is on the border of 3 Gov units so they would benefit too, so they should help pay for it. (4, 1)
- Chan Rec Center. EP and Chaska has a common mitt center. This center needs to offer better amenities to its community. (0, 0)
- Unless the city of Chaska constructs to the west, it is a dead end. So the 2 cities need to engage with each other. There are several areas like this the 2 of you need to sit down and prioritize. (1, 0)
- Power Park is very dated and would benefit from updated structures. Many young families have moved into the surrounding neighborhoods and it's wonderful fairly secluded setting that could use an update (2, 0)
- 39 Power HIIIs Park play structure needs to be updated. (4, 2)
- This Disc Golf course has been wonderful for families and friends alike. For such a nice course, the Tee boxes are a 1/10. Slippery, indented, uneven, angled incorrectly, and in need of an upgrade. (1, 2)
- Please no more lights near Springfield houses. Ice rink lights are blinding and shine in our eyes inside our house. This also scares away the wildlife we usually see & hear at night time. (2, 2)
- The tee boxes on the disc golf course are in poor condition. The uneven ground makes it difficult to tee off, even with the mats, which are also slippery . (1, 2)
- Cement tee boxes would be a great addition to the disc golf course. The current boxes are not equal to the standard tee box and make it difficult to throw. Overall great course, final touches are tees (1, 3)
- This is a mixed concern. I'd love the connection to Powers but want to ensure that if a road gets built, proper traffic signage is there and minimize taking down the trees since they're scenery. (1, 0)
- Do we really need both trails? Perhaps not do the 1 along 212 as that is noisy. I'd rank the S leg as a 4, and the N leg as a 1 on a scale of 1 to 10 (10 be highest priority for the cities trail sys (1, 1)

Nature Play Comment (up votes, down votes)

- Would be nice to see some larger equipment for older kids. (1, 1) 1
- Access to the lake from North Lotus Park would be awesome. Even a simple boardwalk through the trees and buckthorn so we could have a 2 lakeview would make sense for a park with lots of lakeshore! (13, 1)
- Adding community nature play as part an expansion of Lake Ann Park would enhance this park as an area destination, setting it apart from 3 surrounding communities. (31, 2)

Social PinPoint Summary Survey Responses

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|--------------------------------|---|---|
| Bandimere Community Park | Splash pad would be a great addition to Bandimere, as would public rest rooms. | |
| Bandimere Community Park | We should support as many activities as possible to improve the health of our community. That would also include a new archery range for children learning this sport. If we can support having 20-30 children shooting arrows inside a gymnasium as safe, we should be able to find an outdoor solution as well. | |
| Bandimere Community Park | All points | |
| Bandimere Community Park | | More trees to replace lost, dead and dying. |
| Bandimere Community Park | I'm. It sure our money needs to be spent on concrete tee boxes. The usage of the disc golf seems to be doing fine without permanent fixtures removing free space. If the grass was being destroyed, that's one thing, but there's not enough justification for adding concrete. | It doesn't address the intrusion that the current improvements have made toward bettering the surrounding community and properties. Hundreds of trees were removed and or destroyed with past road and park improvements and very few trees have been planted to replace. More trees need to be planted in this park to make up for the hundreds that were removed and have died over the course of other improvements. Please plant more trees and improve the overall aesthetic and appeal of the park. |
| Bandimere Community Park | | Add Tennis Courts |
| Bandimere Community Park | Would love a splash pad here. | |
| Bandimere Community Park | | Certainly do not need any additions to draw more disk golf players. Since it was introduced the trails are full of broken glass, beer cans, litter. Do not need any type of splash pad or buildings. |
| Bandimere Community Park | This would make this course an absolutely perfect hometown course. I'd play it more often rather than traveling out of town. The initial drive of every hole is just so important! | |
| Bandimere Community Park | These facilities will be wonderful additions at Bandimere, especially for the soccer and baseball teams who use the park! | |
| Bandimere Community Park | Need more upgrades to bandimere. | None |
| Bandimere Community Park | | For walkers throughout Bandimere - there are many "near misses" whereby disc golf players do NOT follow the rules and signs and throw the discs over the walking paths. Better signage along with clear, simple directions is a MUST! |
| Bandimere Community Park | I like the warming house, sport court and picnic shelter. | Will it be considered to add tennis courts (2 - 3 courts)? Currently, there are no tennis courts near this end of Chanhassen. Also, a simpler and more cost effective option could be to consider adding a handball court for kids. The splash pad sounds nice; however, there will be problems and injury associated with that and it will also bring in LOTS of people from all over the metro to damage and destroy without supervision. An ice-skating rink along with a hockey rink would be advisable - as not everyone plays hockey and winter is for skating and sledding and snowshoeing, etc. |

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|---------------------------------------|--|---|
| Bandimere Community Park | "Picnic shelter with restrooms and a splash pad would be wonderful improvements!! We love this park!" | |
| Bandimere Community Park | Almost everything!! | Make these fields more available to Chanhassen city leagues and events. |
| Bandimere Community Park | | What about improving the baseball fields that actually get used?? They are in rough shape and the city is in need of more upper age full size fields. |
| Bandimere Community Park | There aren't many facilities on this side of chan. | |
| Bandimere Community Park | Splash pad! | |
| Bandimere Community Park | Splash pad! | |
| Bandimere Community Park | Shelter and splash pad | Please make sure there is enough parking |
| Bluff Creek Corridor | Great idea! | |
| Bluff Creek Corridor | Reducing the heavy storm water flows in really needed. | |
| City Center Park | Awesome! It's hard enough to convince a potty-training kid to stop what they're doing to go potty with out having to convince them to do it in a giant, gross, port-a-potty | |
| City Center Park | | Why? Why do we need this? this only be an additional concern for continued maintenance, loitering, eyesore for an area where all people is walk the sidewalk along Kerber |
| City Center Park | Has been needed for many years, especially since this park is used by CAA for youth sports, especially the younger ages. | None |
| City Center Park | Everything. Thanks | |
| City Center Park | Intuitive. It makes me surprised to realize we don't already have one, given the amount of activities there. | |
| County Road 61 Corridor | Protect the head waters from run off into the Fen. Preserve some areas as natural areas. BTW, why is this marker down by 212 when Bluff CGC is over a mile north? 1 of the 2 N-S trails should be done right away, either 101 or Bluff Creek road. The other plan for like 20 yrs out to spread costs out. | |
| East Central Neighborhood Parks | This should be done! | None |
| Facilities | | "There is absolutely 'nothing' listed for tennis! Why not?" |
| Facilities | Would love to see a quality splash pad / playground feature added for the community. Nature play design would be a bonus. | |
| Facilities | There is a wide range of offerings both in courses and in the time of the day/week those courses are offered. We absolutely love having the Rec Center be such a strong part of the community; our kids have grown up in the Rec Center sports programs and it is something we love about Chanhassen. | none |

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|------------------------|--|---|
| Lake Ann Park | Love the complete loop trail idea. | |
| Lake Ann Park | Would love to have a trail that goes all the way around Lake Ann. Currently this is not a place we would choose often to take walks because of the trail. | |
| Lake Ann Park | Loop trail would make this park much more appealing as a destination. | |
| Lake Ann Park | I like that you will preserve the natural areas. It would really be nice to have a nicer beach area or improve the one that is already there. | |
| Lake Ann Park | I love that there will be a bike trail around Lake Anne finally! I'd love to see a walking trail to extend all the way around the lake. | |
| Lake Ann Park | Loop trail | |
| Lake Ann Park | "yes please I would love a path around Lake Ann. | |
| II . | Less strip malls and more Parks. | |
| Lake Ann Park | Especially like the idea of completing the loop and make NW area usable. Would encourage more use for seniors as well as not as active adults as relatively flat and not too long of a route | |
| Lake Ann Park | All points | |
| Lake Ann Park | Love it! Lake Ann Park is so unique to Chanhassen. Completing a loop trail around Lake Ann would be particularly wonderful. | None |
| Lake Ann Park | | Maybe I'm missing it but permanent bathrooms at LA fields is very important and should be addressed. |
| Lake Ann Park | Completing the loop | |
| Lake Ann Park | Would LOVE a loop trail around the lake and the ability to preserve the undeveloped land all the way around the lake. | Overdevelopment of the park. A trail would not need to negate the woodsy feel of the west and north shore of the lake. |
| Lake Ann Park | I love the idea of preserving the natural area and have a complete loop around Lake Ann. | I don't want large boats to go onto Lake Lucy. Keep the lakes as in with boating regulations and traffic away from the Greenwood Shores Neighborhood. |
| Lake Ann Park | Lake Ann Park is the crown jewel of Chanhassen, great focus area! | That permanent restrooms are not a top priority is a huge concern, they are LONG overdue. |
| Lake Ann Park | Areas W and N should be natural areas with just a trail. meaning no mowed grass, ball fields, playgrounds, etc. | Not doing it quick enough. |
| Lake Ann Park | Great, need a trail. | Where is the proposal for the permanent restrooms by the ballfields? Long overdue. |
| Lake Ann Park | I would love a loop trail around Lake Ann. | |
| Lake Ann Park | A loop trail around the lake would be awesome! | |
| Lake Ann Park | Love the loop trail around Lake Ann. | |
| Lake Lucy | | How does this impact our ability to control zebra mussels? Having "clean" lakes is a selling point for Chanhassen. |
| Lake Lucy | Keep it closed to preserve nature | |
| Lake Lucy | Nothing. | There are enough public boat accesses for lakes in the area. |
| Lake Lucy | I do not like this initiative | This is a very small lake with lots of wildlife. Public boat access with would be disruptive to homeowners and harmful to wildlife. |
| Lake Lucy | Seems like another outlet for public use of Lake Ann | Disruption of neighborhood and speeding cars. A parking lot and speed bumps maybe necessary to control the issues already in place. |
| Lake Lucy | Please keep Lucy closed so that canoes and kayaks from Lake Ann are the only allowed access. The quiet of the two connected lakes is rare. Lets not take it away. | |

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|------------------------|--|--|
| Lake Lucy | Nothing to like, imo. The lake is too small for simple recreation boating, water skiing, jet skiing. Folks who want to do that can go to Bryant, Waconia or Minnetonka for that. The fishery is nice but more motor boat traffic would upset heron nesting and beaver population. Also would stress muskrat families. In short, this is a nice small lake. Putting in public access would severely disrupt peace enjoyed by homeowners. I don't live on the lake but have a friend who does. I do fish there with him and it gets crowded if 5 landowners are on the lake at the same time with motors. I will be reaching out to brad nylin, executive director of mm waterfowl association to assess the habitat and likely impact of public access. | Too small of lake for more motor traffic and delicate ecosystem for large heron, beaver and muskrats plus small waterfowl nesting. |
| Lake Lucy | Nothing | Lake Lucy is too small to support more recreation. As a motorized boating lake it would be hazardous, and would inevitably lead to new restrictions - at best. This change would be unfair to the lake front homeowners who chose to live on lake Lucy for its unmatched safety and solitude, despite being a motorized recreational lake. There would also be an increase in traffic to the neighborhood, especially near the blind curve on South-west utica lane. This would add to the safety risks, increasing car and pedestrian accidents, and would endanger the neighborhood children who frequent the small beach and trail that are accessed from that corner. Lastly, there would be increased risk of contaminating the lake with invasive species, such as zebra mussels, caused by the introduction of new boats coming in from other waters. This would certainly have a negative impact on the lake ecology, and on the quality of living and recreating on the lake. Adding insult to injury, it would ultimately result in decreased property values, and decreased investment in the neighborhood, which would mean a reduction in tax revenues expected to help pay for these projects. |
| Lake Lucy | Nothing | What kind of demand is there? Lucy is a small lake to have additional motor boats. Seems like it would make the nice Greenwood Shores Park nice and quit anymore! |
| Lake Lucy | Access to Lake Lucy would be nice. | I think the access should allow small boats (12-14 feet) to be launched, and should allow electric (but not gasoline) motors. |
| Lake Lucy | I do not like this initiative. | There is already boat access on Lake Ann. |
| Lake Lucy | | Lake Lucy has always been a closed quiet lake I think it needs to stay that way. There are plenty of other lakes around for the public to use. I know that Lucy is accessible from Ann for non motorized boats and I believe it should stay that way. |
| Lake Lucy | | Lake Lucy is too small of a lake to have public access. Home owners bought or built with idea that this would remain as it has been. Lake has a lot of traffic co,ing from lake Ann already |
| Lake Lucy | | Don't want traffic or parking lot in residential neighborhoods to get to a public boat access |
| Lake Lucy | Nothing. | This is a small lake, more boat/fishing pressure will be tough to take. Invasive plant/zebra would be devistating. |
| Lake Lucy | Lake Lucy should have a boat access. | Speed boats. Do a 10hp max HP on motors that use the lake. |
| Lake Lucy | NOTHING | My neighbors and my family all bought lots and built in the Lake Lucy Ridge neighborhood. We did NOT anticipate a public boat launch when considering the purchase prices of our homes and a launch will CERTAINLY decrease our property values and more importantly decrease the quality of life we currently enjoy. Don't waste your time or our tax dollars studying this idea. Our neighborhood will strongly oppose this initiative. We have ample public boat launches in this city. Do not disrupt quiet neighborhoods to add more. |

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|--|--|--|
| Lake Susan Park | Adding features to baseball field opens up another spot for the large baseball community. Easy spot to get in and out of. If going to close archery would like to see frisbee golf or bocce ball - not all parking | |
| Lake Susan Park | | |
| Lake Susan Park | The parking lot is often at capacity on weekday nights and Sunday afternoons when baseball games are being played. | The lighting spilling over in the Lake Susan Hills neighborhood. |
| Lake Susan Park | Yay to permanent bathrooms | |
| Minnesota River Bluff LRT Regional Trail | This is a beautiful trail and one that should be enjoyed by people in all of the neighboring communities. | Not only do we need to support the trail itself, but need to create safe ways to access it from Chanhassen proper or one of the local parks to tie use of the trail with a stop in Chanhassen. |
| Minnesota River Bluff LRT Regional Trail | This trail is mostly intact and should be reopened all the way to Chaska. | |
| Minnesota River Bluff LRT Regional Trail | Yes, please fix this ! | |
| Minnesota River Bluff LRT Regional Trail | Anything that can be done to improve trail conditions, extend and connect the trails helps to improve our quality of life as it relates to the health of all citizens! | |
| Minnesota River Bluff LRT Regional Trail | this has been closed far too long. | |
| MN River Valley | This is a critical initiative. | |
| North Central Neighborhood Parks | I would like to see the pea gravel replaced with the spongy/asphalt-like surface. | |
| Northeast Neighborhood Parks | Local parks are a real treasure and should receive regularly scheduled maintenance and upgrades - especially if there are safety concerns. | I would like this initiative to include safe foot travel to and from parks. Many neighborhood parks are not accessible without walking on the road or crossing intersections that do not have a painted/posted crosswalk. Parks are not valuable if you cannot easily get to them. |
| Northeast Neighborhood Parks | "Would love to see lacrosse nets added seasonally to North and South Lotus Lake parks. | |
| Northeast Neighborhood Parks | long term planning | |
| Northeast Neighborhood Parks | I like that the current park is being considered for on-going updates. The hockey rink and baseball field in particular are looking run down at North Lotus Lake park. | |
| Northeast Neighborhood Parks | Thanks for keeping up our parks! | I would love to see the area by the lake at North Lotus Lake Park be developed more to allow park-goers closer access to view the lake. You hardly know you are close to a lake without a boardwalk area or trail that lets you get close access to the beauty of the water. In our corner of Chanhassen, this would be really appreciated. Thank you! |
| Northwest Neighborhood Parks | Love the new sport court, picnic area, | "More things I'd like to see: tether ball, teeter totter, volleyball, fitness markers along trail circuits, flashing crossing marker to get to beach, more benches are beach |
| Northwest Neighborhood Parks | There is nothing specific written here, just generalities regArding improvements. | Where's the schedule? |

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|------------------------|---|--|
| Recreation Center | Would love the expansion to include an outdoor pool. | |
| Recreation Center | I would like to see an outdoor community pool added to Chanhassen. | |
| Recreation Center | Would love to have a larger fitness facility, a pool would be nice too. Improve the parks and recs programs for children. We have started to do most of our activities at the Chaska Community Center. | |
| Recreation Center | I like the fact it is up for discussion. I would love to see an option of a pool and a kid's pool area. | |
| Recreation Center | I'd like to see this facility combine with the new mall at Lyman and Powers; you could help each other out. With the facility there it would bring in more people and we need a place to walk indoors during the winter months. | |
| Recreation Center | | I don't know what's in it but I'd like to comment about better ventilation in the room and sanitization of equipment. This past year has been lots of spreading of a cold |
| Recreation Center | Chan has grown enough now that we should have a more up to date facility for us. | |
| Recreation Center | I like the fact that it will be using a trail that is already there - the location is wonderful because there is so much wildlife in that area. It is quiet and peaceful. | I like the fact that it will be using a trail that is already there, however, I am concerned that you will take away from the natural wildlife that lives there. There are tons of deer and turkeys and other animals that have their homes here. If you preserve all of that while improving the trail so that it is safer (meaning that parts of the trail near the highway where others can't see you) can deter people from walking there. If you can raise that area a little higher to be more level with the highway it would be better. Also, that whole trail area near the town homes especially need to be cleaned up. There is a lot of paper bags and trash. There is also a great need for a dog poop station where people can dispose of and get plastic bags to scoop. |
| Recreation Center | Most surrounding communities have community centers with pool, outdoor water features and indoor play areas. This is an absolute must for our communities and growing families. We don't have a YMCA or any pools that are reasonable to attend. Many folks can't afford lifetime, which should not be the only pool option. I highly recommend making this a priority for our community. | |
| Recreation Center | our rec center is very poor. most families go to Chaska (which we have to pay more for) | |
| Recreation Center | | There needs to be an outdoor swimming pool somewhere in this vicinity. It's ridiculous only private neighborhood pools exist. |
| Recreation Center | The EP and Chaska community centers offer far more. I think a study and expansion is long overdue. | |
| Recreation Center | Expansion of recreation and gym greatly needed. Neighboring towns like EP and Chaska have amazing rec centers and several Chan residents we know opt to pay their fees for use instead of staying local. | How much more in taxes are needed for expansion and maintainable of something like this? What are you specifically looking to expand? |
| Recreation Center | Need functioning bathrooms. Need better concession area by fields that are consistently maintained. | |
| Recreation Center | YES. WAY OVERDUE. More courts, more workout equipment. | None |
| Recreation Center | YES! Finally this is a 20 year old facility lets update all of it. Add more courts and better work out equipment. | NONE |
| Recreation Center | ???? This initiative says nothing. | Complete a study? I don't know what you are thinking. How can one like or dislike this. We need a pool! Say you're building a pool! If you are not planning on putting in a pool it is a complete waste. |

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|------------------------|---|---|
| Recreation Center | Yes- an indoor skating rink & a swimming pool would be great. I have to go to Eden Prairie, Minnetonka or Chaska to use an indoor rink or public swimming pool right now. With the increased population of Chanhassen you would think we would have more opportunities available for our residents. | |
| Recreation Center | Please consider a community pool! | |
| Recreation Center | I support this initiative. | Add a pool, please! I have to go to other cities and pay non-member prices, but have no option to stay in Chan and swim. |
| Seminary Fen | Encourage the expanded land protection via the Lessard-Sams Mn Outdoor Heritage funding to acquire more land uphill of this area. But the City of Chanhassen also needs to stop anyone developing this area in the meantime. | |
| Seminary Fen | An excellent idea to protect the natural springs/fens located there. This must ALSO include stopping storm run off water (which is warm) that will kill the Brook Trout. So the diversion of any storm water up hill of this area is crucial. | Not doing enough to stop warm water from storm sewers from entering this area. |
| Senior Center | With the aging population in the area, I think it is a good idea to expand facilities | |
| Senior Center | Improve accessibility | In this region, I'm often walking with a stroller from Powers to the library and to the park. There are lots of stairs, but not a lot of ramps (even in the park). Consider accessibility for areas outside of the senior center that benefit all of us (seniors, those with disabilities, parents w/strollers) |
| Skate Park | | The kids that I know that use the park say the existing improvements are. The park is pretty good. |
| Skate Park | I like that improvements are being planned. Two suggestions include concrete base instead of pavement and add more rails. Last, please keep the skate park open during improvements, don't close for a summer. | None |
| Skate Park | | |
| Skate Park | | I would like to see that the park is built in a wide open visible area like Eden Prarie's Round Lake Skate Park, with no opportunity for drug dealers or the like to meet with or push teens into a secluded, hidden area at the park. |
| Skate Park | We love having access to a skatepark. | |
| Skate Park | Yes! We need a great skate park! | Any chance some part of the skate park can be indoors? We have nothing on this side of town for indoor skateboarding! |
| Trails | Making it easier to negotiate city amenities is an asset to us all. The ability of residents to bike to the Farmer's Market/library is an example of an increased use that could be supported by connecting our trail systems and making travel to and from city center easier. | |
| Trails | As an avid runner and biker, I am keenly aware of the measurable differences in our community's commitment to pedestrian safety and other communities (such as Eden Prairie). Simple things, such as painted crosswalks where the trail crosses a road would be a meaningful step in the right direction, especially around city parks. Nearly every outing I take is marred by a "near miss" that could have been avoided with better signage and community education. | My primary concern is that we will not move fast enough and will see a rise in pedestrian/bike-related incidents trending across the state. We are trying to promote a "great place to live" image and that fails if using features such as the trails is dangerous. |
| Trails | Crossing hwy 7 is very dangerous especially for children anyhthing which helps would be great. An over pass or underpass would be ideal | |

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|------------------------|--|---|
| Trails | | If Prince's land properties that are located off of Galpin Blvd. get sold for some reason (and I really hope they do not) I would like to see it remain open and undeveloped because it is such a preserved and beautiful part of Chanhassen that should remain untouched. There are many animals that have their homes there and I think it would be honoring Prince to keep it as he wanted it; beautiful and natural. I would not mind a trail going through so that people may enjoy the beauty and peace, but please leave it natural. There are already enough homes surrounding it and there is not a need for more. |
| Trails | | I had called about this last year and was concerned about people driving through those stop signs and offered my opinion on what should be done. There should be a clear marker that indicates a crossing and that there are stop signs there. So many times I have seen people just going slow through it or not stopping at all and there are people with animals crossing there often as well as kids trying to get to and from the park. I would like to see stop signs that flash so that it is easy visible that you have to stop. |
| Trails | I am very concerned about the crossing over Galpin Blvd. at the intersection of Coulter Blvd. Even though the cross walk was positioned at a better place, there is still traffic and kids crossing there. I would like to see an over pass or some sort of blinking warning lights that there are people crossing. It is heavily used and should be a priority for making the area safer. | |
| Trails | This is a bad and busy intersecection for cars and pedestrians alike | |
| Trails | I feel this is a genuine safety issue for bicyclists crossing this area. It would be great if a traffic light could be put in place to aid in the safety of cyclists as well as pedestrians and cars. | I feel that markings and flashing lights would not be enough to ensure safety when crossing Hwy 7. |
| Trails | This would be a great corridor trail to add and connect with existing trails. | Need to ensure safety with trains |
| Trails | A trail extension to the Arboretum is necessary and would open up this beautiful land to the rest of Chanhassen on foot. | Need to have a safe way to get across Highway 5 like a bridge or a tunnel. |
| Trails | I think this would be a fabulous trail extension that would open up this beautiful space and make a nice loop around the lake for walkers, bikers, skiiers, and runners. | The popularity of this initiative could create more volume than desired. |
| Trails | | Would like to see a path from bluff creek and pioneer trail going south on bluff creek to the rails to trails path. We have no way to access those trails safely. |
| Trails | This particular crossing is deadly for both car and pedestrian alike - the Hwy 41 & 78th street. With the slant of the road, it is a blind entrance from the East, and the amount of increasing traffic makes crossing from hwy41 from the West VERY difficult. There are NO sidewalks on the West side of 41! Help!!!!! | |
| Trails | I think the completion of this trail gap will elevate traffic on bluff creek | None |
| Trails | Connection to Powers Blvd! | Add'l traffic in case this turns into an actual road. With proper signage, this can be mitigated. And don't remove the trees, bike/walk through them! |
| Trails | we use the trails frequently for biking. It is good to consitantly improve. | |
| Trails | Safety for the young children who are crossing | Na |
| Trails | Love the idea of keeping the space west of Lucy and Ann green. This is a gem in our city. Lets keep it that way. Please do NOT allow housing developments here once the green is gone, it is gone forever. | |

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|------------------------|--|--|
| Trails | I love the idea to continue and expand the trail. | However, I think the creek/canal should not be altered to increase the size and depth. Access between the lakes should be limited to kayaks, canoes, and paddle boards, as it is today in order to preserve the safety and quality of lake Lucy. A bridge over the creek should not be built to allow clearance for larger, motorized boat traffic. |
| Trails | | Not sure if this is indicating a sidewalk, but the Greenwood Shores neighborhood is a quiet, safe area and sidewalks are not necessary. |
| Trails | A safer, more defined crossing across Powers at this point is absolutely needed. The city trails converge here but it is difficult and dangerous to cross Powers. | |
| Trails | Bridge over traffic strongly needed | |
| Trails | | There needs to be a light at the middle school on 41. With standard sensing techniques, it would only operate primarily during the transit hours in the morning and afternoon. This is a priority. One child has been killed here, and one was hit last year (but not killed). What does it take? Don't tell me there can't be a light there, there can. |
| Trails | I think the idea of putting a signal here is good. But feel the only safe solution would be a stop light. | |
| Trails | Love this!! We'd like to ride our bikes this way but there is no trail to the arboretum | |
| Trails | I love this!!! Please do this! I would love it if you could create a feel like Lake Calhoun and Lake Harriet have for Uptown residents. There is so much "life" around those two lakes that it makes you want to drive there just to go for a jog. | I would just want you to go ALL the way around the lakes!!!!!! |
| Trails | Like that you are looking at this | Concerned about the crossing of highway 41 by mmw. Needs to be improved. |
| Trails | | Lots of kids crossing. I personally like the visibility of the pedestrian crossing that has a stop light or flashing lights, like the crossing on Powers south of Hwy 5. |
| Trails | The arboretum should definitely have a trail that connects the main entrance to highway 41. This is long overdue!!! | |
| Trails | "This intersection is DANGEROUS with the temple entrance here, especially with its traffic during service times. If you are heading south on Powers and need to take a left onto Saddlebrook Curve, while you wait, cars pass in the right hand turn lane (to the Temple) at high speeds instead of waiting behind you, as the law requires. We have experienced many near miss rear ending accident situations here in our car with our family, trying to return home safely. Saddlebrook Curve itself also experiences HIGH traffic volumes here during certain times because many commuters from Kerber cut over to Powers using Saddlebrook, increasing the problem at this intersection (without a proper stoplight). In addition, another problem is the traffic cutting through on Saddlebrook Curve (from Kerber and vice versa) at high speeds when many residents with children live off of the road. I can't tell you how many times I've yelled at cars to SLOW DOWN while visiting neighbors on that street. It's supposed to be a neighborhood street! Decrease the posted speed limits (which in and of itself doesn't help) and put in speed bumps or something to encourage drivers to SLOW DOWN!!! The intersections at both ends of Saddlebrook Curve should be looked at in terms of safety! " | |

| Initiative Category | What do you like about this initiative | What concerns do you have about this initiative |
|------------------------|--|--|
| Trails | I agree! This intersection is dangerous for pedestrians due to lack of drivers yielding to us in the crosswalk, despite signage and flag use. Many children use this crosswalk to bike to school when weather permits, and the safety of them crossing is of high concern. Also, while taking a left onto Saddlebrook Curve from Kerber (going west), cars pass at high speeds on the right (no shoulder, no lane, just a wide part of the road). If you are stopped for a pedestrian there is great concern for cars passing on the right instead of waiting for the pedestrian to cross or the car to turn left. We had one experience where we waited to enter the crosswalk (walking with bikes) until there were no cars. Once it was clear, four of us began to cross, I was 4th, and my son 3rd in line. With two safely across, he tripped and fell in the crosswalk, an while I was helping him back up a car approached. Instead of stopping and giving us space to clear the crosswalk, he chose to drive around us entering the other lane. It would also be nice to have shoulder lines placed on Kerber to enforce this problem of passing on the right, as well as provide safe parking for residents using the Kerber sledding hill in the winter. | |
| Trails | Yes, this is needed, people run across the street dangerously often in this area | |
| Trails | There are a lot of people crossing in this area, would be nice if crosswalk was more brightly marked or maybe one of those 'law says to stop for people in crosswalks' reminders | A number of folks seem to cross outside the crosswalk, not sure if this is an indication of more crosswalks needed or not |
| Trails | Very necessary | I recognize Chanhassen can't build a trail outside their juristiction (North of this region). However, you can advocate for the numerous comments from your citizens in the first assessment regarding continuing trail access north to Excelsior. |
| Trails | I agree - this is not a safe place for crossing the road. I support these safety concerns. | |
| Trails | I agree - this is not a safe place to cross the road. I support this change. | |
| Trails | It can help keep our families, kids, and pets safe. | Request: No passing sign. Some (northbound) cars stop for pedestrians, but cars behind them think they're turning west into Saddlebrook Curv, and try to pass on the right - VERY DANGEROUS for pedestrians, and I've witnessed this happen. Flashing lights would help too. |
| Trails | These concerns are valid, both crossing Powers to go to Eckankar or walking south on Powers. I'm not an Eck member, but I live in the neighborhood and see walkers crossing west to go to Eckankar often. I do, however, walk often, and the sidewalk from Saddlebrook curve south to Santa Vera is quite vulnerable to fast-moving traffic. I request a metal barrier like the extant one by Santa Vera. | |
| Trails | It is a pressing issue. | Traffic on Powers is fast. I worry flashing lights and markings wouldn't be enough to feel safe crossing. Is a tunnel possible? |

| How important is it for the City to provide Nature Play in general somewhere in the community? | | How important is it for the City to provide Preserve Nature Play somewhere in the community? | How important is it for the City to provide Neighborhood Nature Play somewhere in the community? | How important is it for the City to provide Community Nature Play somewhere in the community? |
